EDUCATION

- Indian Institute of Engineering Science and Technology, Shibpur
  Bachelor of Technology - Information Technology
  7.50/10 (CGPA upto 4th Semester)
  2021-2025*
- St. Jagatgyan Senior Sec. Public School, Ranchi
  12th Standard (Science)
  77%
  2019-2021
- Manjula Sharma Memorial Academy, Koderma
  10th Standard
  92.6%
  2019

TECHNICAL SKILLS

- Programming Languages : C, C++ (Data Structures and Algorithm), Python, JavaScript (ES6) and TypeScript
- Technologies & Frameworks :NextJs, HTML, CSS, ReactJs, NodeJs(with Express) and RESTful APIs
- Databases : MongoDB (with Mongoose) and SQL
- Data Structures and Algorithms (using C++)

EXPERIENCE

Frontend Web Developer Intern
Swabhyaas
December 2023 - February 2023
- Worked on an internal intent classification tool for finding target audience.
- Worked on an AI interview taking platform.

POSITION OF RESPONSIBILITY

Web Development, ICISS 2024
(An international conference organized by IIEST, Shibpur)
July 2023 - Present
- Created the complete website from scratch (design to code) using React .
- Designed the logos & posters for the same.
- Website : https://iciss2024.in | Repository : https://github.com/techlism/iciss-2024

PROJECTS

My Links Live - A link in bio tool
Technologies used: Next.js, Tailwind CSS, TypeScript, Clerk (for Auth)
Cloudflare R2 (AWS S3 Compatible), TursoDB (SQLite)
- Clerk is used for auth and protecting API routes.
- Created several REST APIs to communicate with Database.
- In order to maintain consistency across the set up tables accordingly.
- Used Cloudflare R2, to allow users to upload images to the website.
- Setup an API that fetches the open graph image from a website and then picks the colour out of it.
- Used Next.js' app router extensively to set up pages and API routes.
- GitHub : https://github.com/techlism/mylivelink | Live version : https://my-links.live/

Indian Stock Market Data
Technologies used: FastAPI with Python, Selenium, Docker
- Provides Rest API (JSON response) on different routes using FASTAPI.
- Primarily targets two main Indian market indices SENSEX and NIFTY (current implementation).
- Using selenium to scrape automatically both website's pages for latest data.
- GitHub : https://github.com/techlism/indian_stock_market_data

CERTIFICATIONS AND ACHIEVEMENTS

- Solved 320+ LeetCode Problems
- Web Development Backend Certification on Udemy
- JavaScript Complete Course on Udemy
- HackerRank's React Assessment

EXTRA CURRICULARS

- Canva and Premiere Pro
